THE LIFT DOLLY ESC

Save Time, Save Money, Save Man-power
Reduce stress, Reduce Back Injuries and Reduce Insurance Claims

★ FUNCTION & FEATURES

- The Lift Dolly allows a single technician to lift & lower, load & unload a condenser or air-handler on their own at a job site.

- A task that usually requires the strength of 2 people now, requires only one person.

- with the Ext. Support Attachment engaged, the Lift Dolly can support a load while in the "reclined" position.

- Patented safe-Brake stops and holds a load at any height

- Fold-down crank handle makes stowing and transport a snap.

- 10" pneumatic tires easily maneuver over any terrain.

- Weighing only 53lbs. With the Ext. Support Attachment makes it extremely portable.

The Lift Dolly ESC is engineered to LIFT and LOWER heavy objects in addition to functioning in the TRANSPORT mode of a traditional dolly. The Lift Dolly ESC will easily and safely handle up to 300 lbs. in the LIFT/LOWER mode, and will move up to 600 lbs. in the TRANSPORT mode.

The Lift Dolly ESC uses mechanical, not electrical, mechanisms which makes it a long-lasting, reliable, cost-efficient tool that is easily portable for any technician.

Make and distribute under 7 patents

SIZE-ADJUSTABLE AIR-HANDLER STAND

The Only Stand that Adjusts in 2 Directions for an Exact Fit

Patent in China. US patent pending

MODELS & PART NUMBERS

- BM060616 16" 2-way Adj-Air-Handler Stand*
- BM060618 18" 2-way Adj-Air-Handler Stand*
- BM060624 24" 2-way Adj-Air-Handler Stand*
- BM060636 36" 2-way Adj-Air-Handler Stand*

FUNCTION & FEATURES

- * The Size-Adjustable Air-Handler Stand allows both the wholesaler and contractor to stock a single stand to cover the majority of their size requirements.
- * This is the only stand to ship flat in a box, saving space in both the warehouse and the technician's van. It is easy to load and transport to the job location, and takes only seconds to assemble with the bolts provided.
- * Straight flush corners allow efficient space usage in tight closets.
- * Powder-coated paint looks great and resists rust.
- * The stand expands from 16"W x 17"D, to 27"W x 29"D. 2-way Adjustable stands are available in 5 height options 16", 18", 24", 30", and 36".
- * All stands have built-in filter slots and include foam seal strips.

Utility knife

THE MAGIC LADDER

Easy to Use, Lightweight to Carry, Compact to Transport and Store

The- Magic Ladder is 10 ladders in one. Simply extend the Ladder from the bottom, step by step, until you find the height you need to comfortably reach the job at hand.

When finished, collapse the ladder completely to its closed position with a single motion.

The Magic ladder is lightweight and requires minimal space for storage or transport.

Patent in China. US patent pending

FUNCTION & FEATURES

- * 3" wide steps provide comfort and safety.
- * High strength aluminum makes the ladders both lightweight and durable
- * All models meet ANSI type II standards, rated 250 lb. Capacity
- * All models meet OSHA requirements
