

MICROPURE[®]

TOTAL HOME ACTIVE AIR PURIFIER

POWERED BY

MX4[™]
IONIC OXIDATION

Revolutionary, patents
pending, air cleaning
technology.

DUST FREE[®]

Breathe The Difference.

Take the Solution to the Problem

- MicroPure's active cloud of clustered air scrubbers are transported via the air ducts and eliminate contaminants. Even in areas of reduced air flow.
- The MicroPure® ionic air scrubbers cause particulate matter to take a charge and conglomerate, making them easier to filter

Total Home Air Purification

- Works throughout the home removing contaminants in the air and on surfaces
- Works 24/7
- Breaks down odors, smoke, germs, and VOC's

MICROPURE
TOTAL-HOME ACTIVE AIR PURIFIER

Kansas State Univ. Tested

- Staph (Staphylococcus aureus): 98.5% reduction
- MRSA (Methycillin Resistant Staphylococcus aureus): 99.8% reduction
- E-Coli (Escherichia coli): 98.1% reduction
- Anthrax family (Bacillus spp.): 99.38% reduction
- Strep (Streptococcus spp.): 96.4% reduction
- Pseudomonas aureuginosa: 99.0% reduction
- Listeria monocytogenes: 99.75% reduction
- Candida albicans: 99.92% reduction
- Black Mold (Stachybotrys chartarum): 99.93% reduction
- Reduction on surfaces in 24 hours

RADIL, LLC; University of Missouri Tested

- Norwalk like virus –
(Caliciviridae Murine Noro) :
99% reductions on stainless
steel, cloth, and carpet
surfaces in 6 hours

Photocatalytic Technology developed by NASA

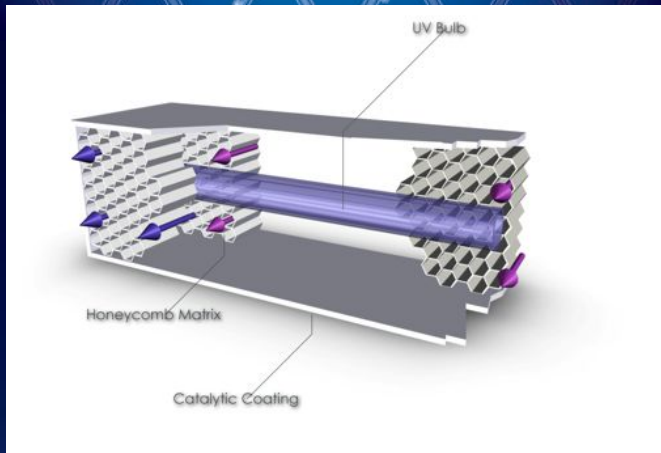

Technology developed for
International Space Station.

- UV light combined with photocatalyst, & water vapor produce charged ionic air scrubbers via a PCO reaction

MICROPURE
TOTAL-HOME ACTIVE AIR PURIFIER

The Patent Pending MX4™ Core

POWERED BY
MX4™
IONIC OXIDATION

MICROPURE
TOTAL HOME ACTIVE AIR PURIFIER

- Next Gen patent pending UV optimized internal architecture
- Proprietary formula comprised of 4 metals in photocatalyst
- Full spectrum HO UV light engine

Easy Sizing

- 5" models suitable for up to 2 ton systems.
- 9" models suitable for 3-5 ton systems.
- 14" models suitable for light commercial systems over 5 tons.

Easy Placement

- Easy placement in either the supply or return side of the system.
- Return side with light illuminating a coil would provide some surface treatment to the coil if there is adequate room for the install

Simple Installation

- Installs in minutes, 24v or auto sensing 120/230v models.
- Custom mounting plate / template
- Hardware for installation in metal and duct board air ducts.
