

# Work smarter with the **FlowJet™** from SpeedClean™

**High flow, continuous cleaning.** The FlowJet from SpeedClean™ with chemical injection, makes quick work of cleaning debris and grime from microchannel and thick condenser and evaporator coils. Now **deliver professional results** in a compact, portable solution.

The FlowJet connects to a water source to deliver a continuous spray of water and cleaning chemical to **wash even the dirtiest coils, without damaging sensitive fins.** And the optional Wonder Wand lets you clean coils from the inside out – a proven method for increasing coil cleaning and system efficiency. **Now that's smart.**

Fine or wide spray

Easy cleaning in any situation

\*Shown with optional spray wand.

- Connects to water source for continuous cleaning.
- Powerful 400 PSI spray cleans debris and grime without damaging fins.
- Optional spray wand with 90° nozzle lets you clean from the inside out. Forces dirt and debris back in the direction it entered.
- 12' hose with additional 12' extension hoses available.
- Includes: FlowJet System, 2 standard spray tips, 12' hose, and 25' power cord with GFCI protection.

# FlowJet from SpeedClean.

## Features

## Accessories

### SpeedyFoam Ultra Foaming, Acid free cleaner:

Safer than acid cleaners with ultra foaming action to blast dirt and grime.

Part No: SC-FCC-5

### 90° Spray Wand:

Fits through the top of most condensers to blast dirt from the inside out. Available in multiple lengths.

Part No: SC-WWSS-HF

## Additional cleaning solutions

### Condenser Needle®:

For the most complete coil cleaning solution consider adding the Condenser Needle® from SpeedClean®. This powerful tool connects to a standard garden hose and is designed to exclusively clean condenser coils from the inside and out.

Part No: CN-03

### CoilJet®:

For the most complete coil cleaning solution, consider adding the CoilJet® from SpeedClean®. This all-in-one portable solution cleans condenser and evaporator coils in hard to reach places without the need for water hoses or electrical outlets. The CoilJet® offers a powerful, battery powered coil cleaner that can be used virtually anywhere.

Part No: CJ-125

### BucketVac®:

New from SpeedClean®, the BucketVac® turns any standard 5 gallon bucket into a powerful, portable commercial grade wet/dry vacuum. Easily switch between wet and dry, or add extra capacity for a big job by snapping onto a new bucket.

Part No: BV-5
