

# Work smarter with the **BucketVac™** from SpeedClean™

Designed for the job site, the BucketVac turns any standard 5 gallon bucket into a lightweight commercial grade wet/dry vacuum. Simply snap the vacuum head onto your bucket and get the job done, fast. Powerful suction makes short work of virtually any mess – wet or dry – and when you switch

between wet and dry or need more capacity, just swap in a new bucket. No more goopy messes or stopping, dumping and cleaning. Plus the size of the BucketVac makes it simple to move around – just grab the handle and go. And when the work is done, the lightweight BucketVac pops right off the bucket for easy storage. Now that's smart.

Quickly clean wet surfaces

Chunky or fine pickup

Multiple accessories available

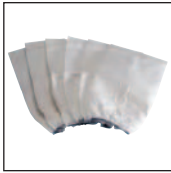

Patent Pending

- Turns a standard 5 gallon bucket into a portable, lightweight and powerful wet/dry vacuum.
- Need more capacity? Changing from wet to dry? Just snap onto a different 5 gallon bucket.
