

Clear drains faster with the **Condensate Drain Tool** from SpeedClean™

Designed to get the job done right, the **condensate line drain tool from SpeedClean** is specifically designed to work with the BucketVac – but fits most other wet/dry vacuums - to clear drains quickly of water, dirt and other standing debris. It simply inserts into the end of the vacuum hose and goes into

– or over – drains and hoses for condensate lines, pumps and more. It's safer than compressed air or CO₂ and **uses your regular wet/dry vacuum**. And when the job's done, it's small enough to fit in most tool boxes or anywhere you keep your tools.

Perfect for
condensate drain
lines

Fits standard 3/4"
and 1" drain lines

Use on a large
variety of drains
and lines

Fits Most
Wet/Dry Vacuums*

- Fits most wet/dry vacuums with hoses up to 2" in diameter
- Use for condensate lines, drains, pans and more
- Fits into – and over 3/4" and 1" lines
- No need to buy CO₂ cartridges
- Safer than forced air solutions

*Wet/Dry vacuum with hoses up to 2" I.D.

Condensate Drain Tool

from SpeedClean™

Benefits

Quickly Cleans:

The Condensate Drain Tool fits most wet/dry vacuums with hose diameter up to 2" to quickly clean a variety of drains, lines and pipes. Use on:

A/C Lines
Drains
Hoses
Tubes and more!

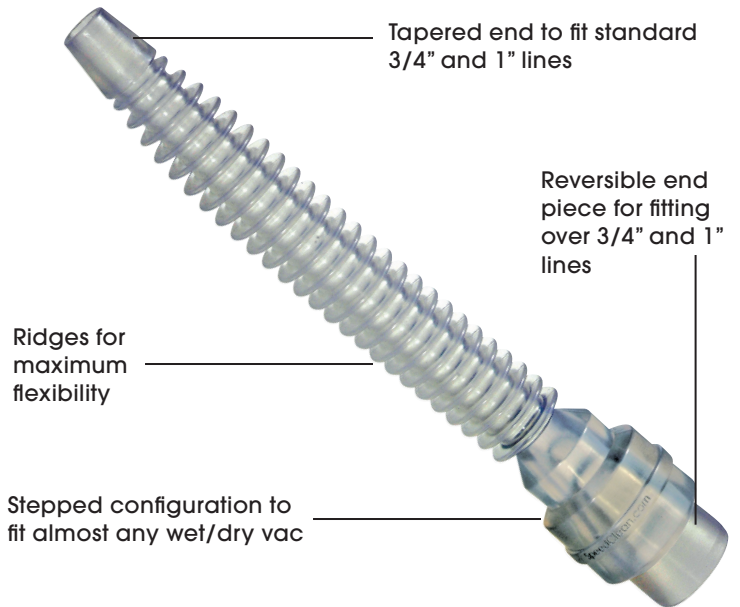

Quickly installs to clean 3/4" lines & 1"

Flips around for larger drains

Features

Safer to use than compressed air or CO₂.

Works with most vacuums:

Performs best with BucketVac, the wet/dry shop vacuum that turns virtually any standard 5 gallon bucket into a lightweight professional grade wet/dry vacuum.
