COMPRESSORS

CSG COMPRESSORS

The CSG Enterprise

The story of CSG Compressors has been decades in the making. It began in 1966 with a vision to address a gap in the market and has since evolved into a revolutionary enterprise that continues to expand beyond expectations. This enterprise is the result of the merger of three companies: Houston Hermetics, American Hermetics-Texas, and Certified Service. Houston Hermetics, the founding brand, brings over 100 years of combined experience in compressor remanufacturing, while American Hermetics is nationally recognized for excellence in commercial air conditioning and refrigeration compressor remanufacturing and technical support. Our latest acquisition - Certified Service adds third-generation, family owned business value with a commitment to the industry since 1959.

CSG Compressors' services cater to HVAC contractors, the chemical and refining industries, school districts, the marine and refrigerated transport sectors, storage companies, ice plants, and more. CSG consistently surpasses industry standards, producing high-quality remanufactured compressors at multiple locations across Texas, while serving companies nationwide.

A full range of rotary screw and semi-hermetic compressors is offered, including Carrier/Carlyle, Copeland, Trane, York, Hanbell, FuSheng, Hitachi, and Bitzer models, all stocked and ready for delivery to job sites.

CSG: Global Compressor-Centric Solutions.

CSG COMPRESSORS

Whether your organization is working with scroll compressors, screw compressors, or semi-hermetic compressors, partnering with CSG for a remanufactured compressor can help you save time, money, and prevent downtime. Our remanufactured compressors meet OEM standards, ensuring reliable performance while reducing the need for costly new equipment.

- Scroll Compressors
- Screw Compressors
- Semi-Hermetic Compressors
- Retrofit Solutions
- Compressor Cores
- Service Valves
- Rotors
- Compressor Parts
- Copeland Valve Plates
- Oil Pumps
- Compressor Demo

SYSTEMATIC AUTONOMOUS MANAGEMENT AND MONITORING INTELLIGENCE - HVAC/R

SAMMi was developed to help make front-line responders more effective and impactful by autonomously dispatching them with the right information and knowledge to solve the problem, before anyone even knows there's an issue.

The AI-powered platform cuts through the noise and condenses complicated data flows into easy-to-follow actions for your responders. SAMMi works to seamlessly and autonomously connect industrial equipment and machines with technicians.

The system pulls in your inbound data, uses algorithms tailored specifically to your operation, and lets your field run the way it's supposed to—on autopilot. Giving you the peace of mind that when an issue arises or is even about to arise, the system has already dispatched a technician to fix it.

STANDARD HVAC

- Multi-Family
- Apartment Complexes
- Condos
- Rental Houses

CRITICAL FACILITIES

- Hospitals
- Care Facilities
- Food Storage

MID RANGE REFRIGERATION RESTAURANTS

- Beer coolers
- Grocery Stores
- Meat Plants
- Convenience Stores
- Family-Owned Businesses
- Independent Stores
- Corner Shops

BENEFITS ACROSS THE ORGANIZATION

EXECUTIVE

- Maximize uptime on your most profitable assets
- Minimize catastrophic failures through early detection
- Minimize environmental damage and cost
- View and dispatch all your internal and external resources through one platform
- Reduced internal diagnostics resource needed

FIELD

- Consolidate alarms into usable job packets - no redundant notifications
- Receive full diagnostic information on equipment before arriving
- Organize requests into a prioritized work queue to complete systematically
- Recommended equipment list reduces round trips for parts
- Automatically escalate alarms to the appropriate responders
- Reduced communications with office

MANAGERS

- Reduce downtime and response time between failures
- Better technician utilization
- Mitigate compounding failures on critical equipment by shortening downtime events
- Improved customer satisfaction through quicker response times
- Visibility into field work queue and responses without the use of additional software

SAMMi IN ACTION | HVAC/R CONDENSING UNIT

- The size of a tablet
- Individually installs in less than 15 minutes
- Supports scaling to accommodate growing data and device volumes
- Seamlessly integrates with various enterprise systems and business applications

- Offers a centralized platform for managing and monitoring remote devices and sensors
- Provides real-time visibility into the performance and health of remote systems
- Triggers automated alerts and notifications for timely issue identification and resolutions
- Enables predictive maintenance capabilities to optimize equipment uptime and performance

CORE BUY BACK PROGRAM

CSG Compressors Buys HVAC Cores

At CSG Compressors, we're always in the market for commercial HVAC compressor cores—and we make the process fast, simple, and profitable for you. Whether you're a contractor cleaning out the shop, a wholesaler with surplus inventory, or a service company with a truckload ready to move, we've got you covered.

What We Buy

We're especially interested in these models:

- York MTS & CTS
- Copeland (any model)
- Trane CHHT & CRHK
- Bitzer (any model)
- Carrier 06T & 06Z

Why Sell to CSG?

We know your time is valuable, so we've built our program to be quick, fair, and hassle-free:

- We Pay All Freight – No shipping headaches, no hidden costs.
- Quick Payment Options – Get your money fast, on your terms.
- No Hassle. No Wait. – Simple process, smooth turnaround.

How It Works

- Gather Your Cores – From a few spares to a full load, no lot is too big or too small.
- Contact CSG – Give us the details and we'll handle the logistics.
- Ship On Us – We arrange and pay all freight
- Get Paid – Choose from quick, secure payment methods.

Why CSG Compressors?

We've been in the HVAC industry for generations. That means we know cores inside and out—and we know how to take care of our partners. When you sell to CSG, you're working with people who value long-term relationships, straight talk, and fair prices.

Don't let unused compressors gather dust.
